

Exciting New Learning Opportunities!

In August 2007, a brand new veterinary education provider launched into the Australian veterinary profession – veteducation.com.au. Our mission is simple - to provide the highest quality continuing education to veterinarians, veterinary nurses, and support staff, using a combination of innovative learning ideas that we call “The veteducation learning experience”. Here’s what we have on offer!

For Veterinary Nurses – we offer exciting 4-6 week short courses for veterinary nurses who have completed their basic nursing qualification – but don’t want to stop learning! Our two pilot courses “Emergency Medicine for Veterinary Nurses” and “Critical Care for Veterinary Nurses” heralded a new era in veterinary nurse education in Australia – combining carefully prepared notes, 24-hour access to additional resources, message boards, and veterinary tutor assistance, PLUS the bonus of weekly LIVE interactive tutorials, to help you through your course material! The response to these courses has been outstanding, with more than 70% of our students already enrolling in another course! All our courses are completed from the comfort of your own home – no travel expenses, no need for locums, and no hidden costs. We have over 12 courses coming up over the next 2-3 years, beginning with “Anaesthesia for Veterinary Nurses” in February 2008! Join our mailing list at www.veteducation.com.au today to make sure you don’t miss out on these superb courses!

For Veterinarians, we have another first for Australian veterinary education, with our LIVE online evening lecture series – given by some of Australia’s top specialists - bringing state-of-the-art continuing education direct to your home or practice from early 2008! Join our mailing list at www.veteducation.com.au and be the first to be informed of our exciting new initiative for veterinary learning
