

New **iM3[®] elite**

WITH SUCTION

Features such as Fibre Optic Lighting in the Highspeed Drill, Autoclavable Venturi Suction, Low Speed High Torque polisher, High Speed Handpiece CLS Flush and our Silent Hurricane Air Compressor make the iM3 elite totally unique in the world of veterinary dentistry.

1. Venturi (air) suction - the only pull apart air suction unit made that can be completely sterilized for surgery - 10 autoclavable tips included
2. Smooth bore suction tubing with bacterial filtered collection bottle—making cleaning easy & efficient
3. Pressurized ultrasonic scaler coolant outlet for water or CLS (for your dental scaler) located on back panel
4. 3 way air/water syringe with removable autoclavable tip
5. Low speed handpiece (autoclavable) orthopaedic work, rabbits or polishing using Blue R&R oscillating prophyl cups. New 5BT (5 Blade Turbine) for longer life and more torque - an iM3[®] exclusive
6. High speed push button handpiece with our long bulb life fibre optic system. Autoclavable and 400,000 rpm for true high speed cutting
7. Exhaust air bottle with bacterial filter - another iM3[®] exclusive and industry first
8. Separate foot control for suction and handpieces
9. Silent Hurricane compressor. Built by iM3 these heavy duty, large capacity compressors won't overheat when the workload increases
10. Heavy duty aluminium chassis with hospital grade powder coating. Removable top allowing easy access for service. Cartridge valves can be replaced in less than 1 minute
11. Twin coolant bottle system with particle filters - water or CLS at the flick of a switch - another industry first to ensure you don't have any handpiece blockages
12. High speed handpiece flush system - flushes the inside of the handpiece to reduce bacterial or viral slime build up - another industry first
13. Corian[®] top with built in magnetic bur holder. Corian[®] is the ideal work surface - bacteria and virus impervious and easily cleaned
14. Built in IEC power board
15. iM3 designed H/P holders—easy to use
16. Stainless steel height adjustable floor stand on castors

Optional: Height adjustable (50cm) long reach (150cm) pneumatic wall arm
Optional: Adjustable stainless steel instrument tray

iM3[®]

New **iM3[®] elite** WITH SUCTION

The iM3 elite Dental machine is designed to provide you with many years of trouble free service – built to last, easy to maintain and service – iM3's Guarantee!

The iM3 elite dental system was designed taking the most advanced features from the iM3 GS and Pro 2000 dental systems to deliver a state of the art veterinary dental machine for the modern veterinarian practicing dentistry.

The results are a dental machine that feature fibre optic lights in the high speed drill (so you can see where you are cutting), 400,000 rpm in the HS drill for fast sectioning and drilling of teeth with water cooling. * Low speed motor with iM3 unique 5BT for increased torque and long life using the Blue R&R oscillating prophylaxis cups so you won't catch muzzle hair or generate excessive heat * Three way air water syringe with removable autoclavable tip (spare tip also supplied) * The iM3 designed variable venturi (air) suction that can be pulled apart for autoclaving * New smooth bore suction tubing makes cleaning easy * 10 autoclavable tips are also supplied with the unit * Newly designed handpiece holders and straight handpiece tubing makes cleaning a breeze when compared to coiled handpiece lines.

Smart features include an inbuilt IEC power board. The transformer is located inside the machine and will automatically switch power 110 or 240v. Pressurized ultrasonic scaler coolant outlet fitted at the back of the unit supplies CLS or water to your ultrasonic

tooth scaler – no more pump up tanks! Routine maintenance instructions for the machine are printed on the back of the unit for easy reference.

(Top Left) Stainless steel height adjustable stand. (Above) Optional height adjustable wall arm. (Left) Stainless steel instrument tray

Options for the new elite include:

- Height adjustable (50cm) long reach (150cm) pneumatic wall arm. The arm allows the machine to be stored above the wet table and pulled out for use.
- the elite is available with or without the Silent Hurricane Compressor, and is usually mounted to an iM3 wall arm or stainless steel height adjustable stand on castors.
- The stainless steel instrument tray provides further space for your instruments etc and can be attached at any time in the future.
