Patent & Trade Mark Attorneys

## PATENT ATTORNEY

### EXCELLENT OPPORTUNITY FOR A CHEMIST

**Houlihan<sup>2</sup>** is a dynamic, innovative firm based in Melbourne, which has an enviable portfolio of work, consisting mainly of large multinational corporations.

We are seeking an ambitious, highly motivated individual, who has a view to long term prospects, to join the well-established Chemical area of our practice.

We offer a friendly working environment with a strong emphasis on unparalleled client service.

The successful candidate will have an excellent opportunity to learn from and work alongside experienced attorneys in all areas of Patent & Trade Mark Attorney practice in Australia and New Zealand. The position will include drafting, prosecution, conducting oppositions before IP Australia and IPONZ, providing IP infringement opinions and running litigation matters before both the Australian and New Zealand Courts. The position will afford a high level of autonomy and responsibility.

The Candidate should preferably have a Ph.D. in the Chemical or Pharmaceuticals area and relevant Post-Doctoral and/or industry experience is desired. Qualified or near-qualified attorneys only need apply.

The salary package will be highly competitive and reflective of the candidate's experience. The firm is able to offer excellent equity partnership prospects.

Interested persons should forward résumés and a brief covering letter marked Private and Confidential to:
